BIOMETRIKA

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

MANAGING EDITOR

E. S. PEARSON

ASSOCIATE EDITOR

M. G. KENDALL

VOLUME 45

1958

ISSUED BY

THE BIOMETRIKA OFFICE, UNIVERSITY COLLEGE, LONDON

PRINTED AT THE UNIVERSITY PRESS, CAMBRIDGE

PRINTED IN GREAT BRITAIN

CONTENTS OF VOLUME 45

Memoirs and Miscellanea

PAGE

ARMITAGE, P. Numerical studies in the sequential estimation of a binomial parameter 1

ASHFORD, J. R. Quantal responses to mixtures of poisons under conditions of simple similar action—the analysis of uncontrolled data 74

BARNARD, G. A. (*See* BAYES, Thomas)

BARTON, D. E. On the equivalence of two tests of equality of rate of occurrence in two series of events occurring randomly in time 267

BARTON, D. E. and CASLEY, D. J. A quick estimate of the regression coefficient . 431

BARTON, D. E., DAVID, F. N. and MALLOWS, C. L. Non-randomness in a sequence of two alternatives. I. Wilcoxon's and allied test statistics 166

BARTON, D. E. and DAVID, F. N. Non-randomness in a sequence of two alternatives. II. Runs test 253

BARTON, D. E. and DAVID, F. N. Runs in a ring 572

BAYES, THOMAS. Essay towards solving a problem in the doctrine of chances. [Reproduced from *Phil. Trans. Roy. Soc.* 1763, **53**, 370–418.] Studies in the history of probability and statistics. IX. With a biographical note by G. A. BARNARD 293

BERGSTRÖM, H. A remark on Spearman's rank correlation coefficient . . 273

BLISS, C. I. and OWEN, A. R. G. Negative binomial distributions with a common k 37

BRADLEY, R. A. (*See* RUSSELL, T. S.)

BRASS, W. Simplified methods of fitting the truncated negative binomial distribution 59

BROWN, R. L. and FEREDAY, F. Multivariate linear structural relations . . 136

BULMER, M. G. Confidence intervals for distance in the analysis of variance . 360

CASLEY, D. J. (*See* BARTON, D. E.)

CLUNIES-ROSS, C. W. Interval estimation for the parameter of a binomial distribution 275

COX, D. R. The interpretation of the effects of non-additivity in the Latin square 69

COX, D. R. Two further applications of a model for binary regression . . . 562

CROW, E. L. *Corrigenda* to 'Confidence intervals for a proportion' 291

CROW, E. L. The mean deviation of the Poisson distribution 556

DANIELS, H. E. and KENDALL, M. G. Short proof of Dr Harley's theorem on the correlation coefficient 571

DARROCH, J. N. The multiple-recapture census. I. Estimation of a closed population 343

DAVID, F. N. (*See* BARTON, D. E.)

DAVID, F. N. and KENDALL, M. G. *Errata* in 'Tables of symmetric functions' . 292

DRONKERS, J. J. Approximate formulae for the statistical distributions of extreme values 447

FEREDAY, F. (*See* BROWN, R. L.)

FINNEY, D. J. The efficiencies of alternative estimators for an asymptotic regression equation 370

PAGE

FOSTER, F. G. Upper percentage points of the generalized beta distribution. III 492
GNANADESIKAN, R. (*See* ROY, S. N.)
GOODMAN, L. A. Simplified runs tests and likelihood ratio tests for Markoff chains 181
GOWER, J. C. (*See* LESLIE, P. H.)
GREENHOUSE, S. W. (*See* HALPERIN, M.)
GUTTMAN, I. A note on a series solution of a problem in estimation 565
HACK, H. R. B. An empirical investigation into the distribution of the F-ratio in samples from two non-normal populations 260
HADER, R. J. (*See* MENDENHALL, W.)
HAIGHT, F. A. Two queues in parallel 401
HALPERIN, M. and GREENHOUSE, S. W. Note on multiple comparisons for adjusted means in the analysis of covariance 256
HERDAN, G. The relation between the dictionary distribution and the occurrence distribution of word length and its importance for the study of quantitative linguistics 222
HERDAN, G. The mathematical relation between Greenberg's index of linguistic diversity and Yule's characteristic 268
HOOPER, J. W. The sampling variance of correlation coefficients under assumptions of fixed and mixed variates 471
HUITSON, A. Further critical values for the sum of two variances 279
JOHNSON, N. L. Theoretical considerations regarding H. R. B. Hack's system of randomization for cross-classifications 265
JOHNSON, N. L. The mean deviation, with special reference to samples from a Pearson Type III population 478
JOHNSON, N. L. *Corrigenda* to 'A note on the mean deviation of the binomial distribution' 587
KABE, D. G. Some applications of Meijer-G functions to distribution problems in statistics 578
KAMAT, A. R. *Corrigenda* to 'On the mean successive difference and its ratio to the root mean square' 587
KENDALL, M. G. (*See* DANIELS, H. E.)
KENDALL, M. G. (*See* DAVID, F. N.)
KERRICH, J. E. Note on a discontinuous probability density 270
LEIPNIK, R. Moment generating functions of quadratic forms in serially correlated normal variables 198
LEIPNIK, R. Note on the characteristic function of a serial-correlation distribution 559
LESLIE, P. H. A stochastic model for studying the properties of certain biological systems by numerical methods 16
LESLIE, P. H. and GOWER, J. C. The properties of a stochastic model for two competing species 316
LORD, R. D. Studies in the history of probability and statistics. VIII. De Morgan and the statistical study of literary style 282
MACKENZIE, J. K. Second paper on statistics associated with the random disorientation of cubes 229
MALLOWS, C. L. (*See* BARTON, D. E.)
MAURICE, RITA. Ranking means of two normal populations with unknown variances 250

PAGE

MAURICE, RITA. Selection of the population with the largest mean when comparisons can be made only in pairs 581
MAYNE, A. J. *Corrigenda* to 'Some further results in the theory of pedestrians and road traffic' 291
MENDENHALL, W. A bibliography on life testing and related topics 521
MENDENHALL, W. and HADER, R. J. Estimation of parameters of mixed exponentially distributed failure time distributions from censored life test data 504
MERRINGTON, MAXINE and PEARSON, E. S. An approximation to the distribution of non-central t 484
MOORE, P. G. Some properties of runs in quality control procedures 89
OLKIN, I. Multivariate ratio estimation for finite populations 154
OWEN, A. R. G. (*See* BLISS, C. I.)
PATTERSON, H. D. The use of autoregression in fitting an exponential curve . 389
PEARSON, E. S. Note on Mr Srivastava's paper on the power function of Student's test 429
PEARSON, E. S. (*See* MERRINGTON, Maxine)
PLACKETT, R. L. Studies in the history of probability and statistics. VII. The principle of the arithmetic mean 130
RAMASUBBAN, T. A. The mean difference and the mean deviation of some discontinuous distributions 549
ROY, S. N. and GNANADESIKAN, R. A note on 'Further contributions to multivariate confidence bounds' 581
RUSSELL, T. S. and BRADLEY, R. A. One-way variances in a two-way classification 111
ST-PIERRE, J. (*See* ZINGER, A.)
SANKARAN, M. On Nair's transformation of the correlation coefficient . . 567
SAW, J. G. Moments of sample moments of censored samples from a normal population 211
SAW, J. G. *Corrigenda* to above 587
SHENTON, L. R. Moment estimators and maximum likelihood 411
SKELLAM, J. G. On the derivation and applicability of Neyman's type A distribution 32
SRIVASTAVA, A. B. L. Effect of non-normality on the power function of t-test . 421
SUKHATME, B. V. A two sample distribution free test for comparing variances . 544
TANNER, J. C. A problem in the combination of accident frequencies . . . 331
WAUGH, W. A. O'N. Conditioned Markov processes 241
WILLIAMS, E. J. Simultaneous regression equations in experimentation . . 96
ZINGER, A. and ST-PIERRE, J. On the choice of the best amongst three normal populations with known variances 436
